## Mode-V6 Key Features A Revolutionary Smart Hoist Device

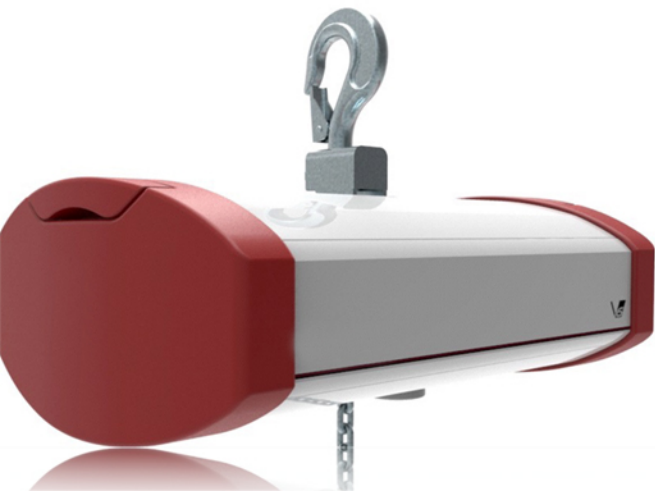

With great effort on the structure design, this is the first time we break our traditional design, with the unibody design, we made our device even lighter.

## Unibody Design

By using Intorq Brake system. Keeping a very high quality of Sync. And have a good performance of balance. Safety is always our major concern.

## Mode-V6 **Key Features** A Revolutionary Smart Hoist Device

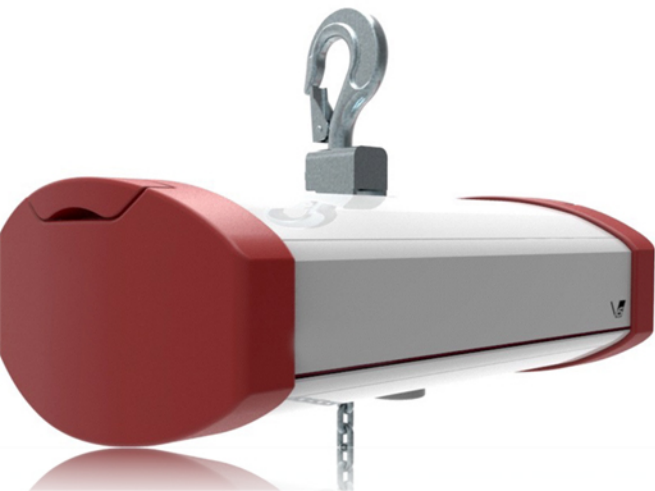

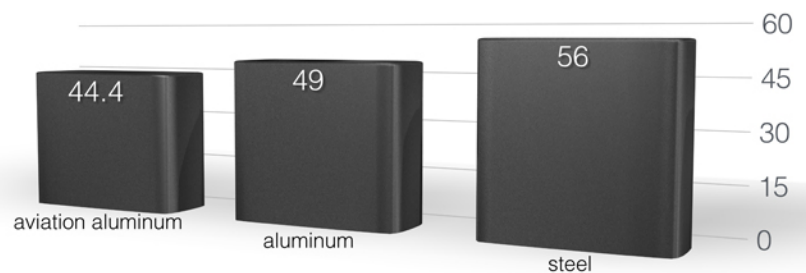

This is the first time we bring this function to the hoist industry. Before, you have to buy an extra one for both-side use, now you only need one single device to meet your use.

## Both-side Use

## Less weight performance

Aviation Aluminum
